

Truckload Solutions

National Coverage and Local Care - We Deliver Truckloads!

Sourcing truckload capacity can be a real nightmare for shippers. It takes a lot of time making multiple phone calls to carriers, searching for the right equipment and drivers in the right place at the right time, and ensuring your selected trucker has the proper operating authorities and safety ratings – not to mention finding a fair, affordable price. Well, the good news is you have an experienced Logistics Plus team that is ready to help – from planning to delivery, and everything in between.

With NTL, finding and quoting affordable truckload capacity is quick, easy and free. When you work with NTL, you get dedicated access to our company-owned equipment and access to over 5,000 additional pre-screened carriers – all with verified operating authorities and safety records. In the rare cases where we can't find the right carrier, we have access to all of the industry's top load boards – and specialists who know how to use them to find the right carrier in the right location at the right price. Also, with our complimentary eShipPlus™ transportation management system (TMS), you can view all of your shipments online – and request live GPS tracking updates through our integration Macropoint®.

NTL (National Truck Load) is a licensed asset-based and brokerage provider of truckload and less-than-truckload (LTL) transportation, warehousing, industrial painting, crating and packaging, and equipment maintenance services. Founded in Erie, PA, with an additional facility in Lexington, NC, today it has a diverse mixture of people and equipment with a strong focus on providing dedicated solutions.
